

Anchorage Warehouse Breaks Two-Year Safety Milestone

Monday, June 19, 2017

The warehouse team of **FSA Anchorage** has reached a record of 731 days without an accident or injury.

According to **Doug Knutson**, Vice President of Operations, the achievement is significant considering there are up to 60 warehouse Associates working quickly in tight spaces.

"We are extremely proud of the hard work and dedication our warehouse Associates have demonstrate in support of teamwork and safety," he said. Congratulations Team Alaska!"

Rusty Storjohann, Senior Vice President of Operations, says the accomplishment is notable because of the very unique circumstances that the Anchorage branch faces.

"This is an amazing accomplishment considering that the landscape here requires a lot of unique receiving, staging and shipping processes to service the Alaska market," he said. "The team here does everything safely and with precision from getting perishable freight from the Lower 48 to preparing loads to go up the ice roads, to fly food all across the state and servicing the tourist industry far and wide in all kinds of extreme weather conditions."
